WARNING
 You must complete the Kempower certification training before you do service or maintenance tasks.

NOTICE
 Obey the preventive maintenance plan to ensure the optimal performance of the electric vehicle charging system. Failure to obey the preventive maintenance plan and report the completed tasks to ChargeEye is cause to void the warranty.

	Annually	As necessary	10.000*
Charging unit maintenance	•		
Charging cable and vehicle connector maintenance		•	•
Software updates		•	

* After 10.000 uses

The maintenance interval always depends on environmental and site-specific conditions.

- Charging unit maintenance
 - Done annually, more often in demanding conditions. Maintenance tasks include a visual inspection, cleaning, and tightening terminal connections.
- Charging cable and vehicle connector maintenance
 - Replaced if any damage is found. Inspect regularly.
- Software update
 - Software updates are performed remotely by approved service partners or Kempower upon request.
